

B3: For prime p , the units group $\Gamma := \Phi_p$ is cyclic of order $p-1$. Let \mathcal{S} be its set of generators [those elts of order $p-1$]. For $p > 3$, prove $\prod(\mathcal{S}) \equiv_p 1$. [Use Wilson's-Thm ideas.]

Please *fill-in* every *blank* on this sheet. [50 minute exam, *or so Prof. Erroneous thought.*]

B1: *Show no work.*

a Prof. King believes that writing in complete, coherent sentences is crucial in communicating Mathematics, improves posture, and whitens teeth. Circle one:

True! Yes! wH'at S a?sEntENcE

b Define the *numeral map* $h: [1..12] \rightarrow \mathbb{N}$, where $h(n)$ is the number of letters in the n^{th} numeral. So $h(12)$ equals 6, since "twelve" has 6 letters.

Compute the convolution $[h \otimes \mu](10) =$ _____.

c Consider the four congruences C1: $z \equiv_8 1$, C2: $z \equiv_{18} 15$, C3: $z \equiv_{21} 18$ and C4: $z \equiv_{10} 3$. Let z_j be the *smallest natnum* satisfying (C1) \wedge (Cj). Then

$z_2 =$ _____ ; $z_3 =$ _____ ; $z_4 =$ _____.

d Let $N := 5^8$. Then $x^2 + y^2 = N$, where posints $x < y$ and $x \perp y$. [Hint: Use "repeated SOTS-melding". Only three melds needed.]

$x =$ _____ and $y =$ _____.

e TMWFI, 8 is a mod-125 primroot, since its mult-order (mod 125) is $100 \stackrel{\text{note}}{=} \varphi(125)$. Use the CRT-isomorphism to compute the corresponding mod-250 primroot $R =$ _____ $\in [0..250)$.

f $S(98,000,000) =$ _____ where,

for posints k , let $S(k)$ be the number of mod- k square-roots of 1. BTWay, group $(\Phi(1024), \cdot, 1)$ is isomorphic to this product _____ of cyclic groups.

[Let $C(N)$ denote the cyclic group with N many elements.]

OYOP: *In grammatical English sentences, write your essays on every **third** line (usually), so that I can easily write between the lines. Start each essay on a **new** sheet of paper.*

B1: _____ 120pts

B2: _____ 45pts

B3: _____ 40pts

B2: Note $f(n) := \frac{1}{2} \cdot [27^n + 31^n]$ is an integer. Prove, for each odd $n \geq 5$, that $f(n)$ is composite. [Hint: Look at $f(n)$ mod something.]

Total: _____ 205pts
